

CBR600RR

ROAD PERFECTED. SUPER STYLE.

It boasts a blistering race heritage and shares DNA with the race-winning RC212V and CBR1000RR. The CBR600RR delivers one of the most natural road-going experiences on two wheels. The 600cc liquid-cooled inline-4 engine is tuned for strong mid-range performance and maximum drive out of corners. Its ultra-light weight, mass centralisation and compact chassis ensure that its blistering power is balanced by easy, natural handling and faultless road manners.

With race-derived suspension systems the CBR600RR is nevertheless comfortable enough for any journey. Radially mounted, four-piston calliper front disc brakes give it sensational stopping power to match its sports performance.

SPECIFICATION

Engine: Liquid-cooled 4-stroke 16-valve DOHC inline-4

Displacement: 599 cm³

Max. Power Output: 88.1 kW / 13,500 min⁻¹ (95/1/EC)

Max. Torque: 66 Nm / 11,250 min⁻¹ (95/1/EC)

Kerb Weight: 184 kg (F: 95 kg; R: 89 kg)

194 kg (F: 99 kg; R: 95 kg)*

Fuel Tank Capacity: 18 litres (incl. 3.5-litre LCD-indicated reserve)

Fuel Consumption: 12.1 ml / (54.8 mpg) (WMTC mode)

Seat Height: 820 mm

Ground Clearance: 135 mm

Dimensions (LxWxH): 2,010 x 685 x 1,105 mm

*C-ABS version.
